Mr. Coakley is one of the thirty-one students who were graduated from the Milwaukee Medical College and School of Dentistry on April 5, but who have been refused licenses by the state board on the ground that the college has failed to comply with the state law in compelling all its students to take courses of at least three years. WEATHER FORECAST

Chicago, April 14. —[Special]—
Forecast for Wisconsin:
Fair and warmer tonight and Friday

lean leaders and would bring about the freedom and independence of Cuba. In speaking of the resolution Mr. Cooper said: "I supported the house resolution because it was the best we could secure from the house committee on foreign affairs, and because it contains two provisions of vital importance, one a demand for immediate intervention and the other a demand for Cuban independence. The resolution which will go to the president will undoubtedly be the result of a conference between the committees of the two houses."

THE ARMISTICE A DELUSION

It Has No Effect In Stopping the Atrocities In Cuba

Washington, April 14—It has been found that the Spanish proclamation of an armistice in Cuba has amounted to nothing at all, and the president has said to several congressmen today that, had he known the full truth as to the Spanish proposition, he would have placed no reliance upon it, and would have made no reference to it in his message to congress. Such references as he did make to the subject, however, did no particular harm, and only weakened the tone of the president's communication.

When it became known that the president had received the above information it was reported that he would send a supplemental message to congress dealing with the alleged armistice. He will not send any message, but will allow the matter to drop, with the understanding that the proposition from Spain, which at first looked so hopeful, as pointing to a desire on the part of the Spanish government to end the hostilities in Cuba, is to have no effect upon the course of congress in dealing with the Cuban question.

THE PRESIDENT'S COURSE

He Is Not Hampering Action in Behalf of Cuba.

Chicago, April 14—The somewhat warlike and censorious Washington correspondent of the Tribune comes to the defense of President McKinley against some of his traducers. He says: "The president is not openly hampering action, but some of his friends are and he is being made to bear the burden. The president has his own opinions and the have not been entirely those of congress, but in spite of the fears expressed the Capitol and not the White House, will prove unequal to the occasion. There is a well defined belief that when the president has once exhausted all devices for peace he will accept the inevitable war and carry it on to a glorious and successful conclusion."

GOING TO THE FRONT

Chattanooga, April 14—[Special]—Two companies of the twenty-fifth infantry, which were expected to encamp at Chickamauga, have been ordered to proceed to Key West immediately.

SQUADRON SAILS FROM KEY WEST

RUMORS THAT OUR FLEET HAS GONE TO SEA.

Statement Is Neither Affirmed Nor Denied by Washington Officials—Weyler To Go to Cuba—The Queen Threatens to Abdicate if America's Demands Are Conceded.

Washington, April 14—[Special]—It is reported that the Key West squadron has sailed. Secretary Long refuses to confirm or deny the rumor.

Key West, April 14—[Special]—The opinion of naval officers here is that the flying squadron has gone to St. Thomas to await orders to make a demonstration at Havana as soon as congress completes its action, the demonstration to be followed by bombardment if Spain refuses to evacuate. Washington, April 14—[Special]—It is generally believed here that the senate Cuban resolutions will prevail over those adopted by the house yesterday, being more expressive of congressional conviction.

There is much conjecture as to what President McKinley will do with the resolutions. He can veto them if he wishes to, but it is not believed he will do so. He may, however, withhold his signature the constitutional ten days, thus delaying the opening of hostilities.

A PREACHER HINSED.

Said He Considered the President's Message a Cowardly One.

Pittsburg, Pa., April 14—Rev. J. A. Jayne, pastor of the Observatory Hill Christian church, Allegheny, had an experience at Tartentum last night, which he will remember for a long time. He was scheduled to give a stereoscopic entertainment in the Tartentum United Presbyterian church, his subject being the situation in Cuba. He had many views to exhibit, and a large crowd gathered. The entertainment was enjoyed until Mr. Jayne began to comment upon President McKinley's message. Mr. Jayne declared he did not approve the position taken by the president and said, "I consider McKinley's message a cowardly one." Further he said the president had shown a cowardly spirit all along in the negotiations with Spain. At this the entire audience hissed Mr. Jayne and many cried "Put him out." He was not permitted to finish his entertainment. The women left the church and a few minutes later the preacher had to pack up and leave. He returned to Allegheny on the first train.

SIGSBEE WILL COMMAND.

Chief Officer of the Maine Will Have a New Vessel.

Washington, April 14—Secretary Long has decided to assign Captain Sigsbee, late in command of the Maine, and Captain Goodrich, of the naval war college, to command the auxiliary cruisers St. Louis and St. Paul. The selection of Captain Sigsbee amounts to a vindication of his record in the Maine affair, and is the usual method by which the navy department recognizes the good standing of an officer who has met with misfortune. Captain Sigsbee will command the ship which is first ready for commission, probably the St. Paul.

Washington, April 14—[Special]—Shortly after the senate convened this morning the Cuban resolutions were taken up and Mr. Turner, of Washington, spoke in support of them. WANT PAYMENT FOR A TOMBSTONE

A QUEER CONTENTION AMONG JAMES WHEELER'S HEIRS.

Two of His Granddaughters Placed an Expensive Monument Over His Grave, and Now Want the Estate to Pay for the Same—Other Heirs Object.

Whether or not the estate of the late James Wheeler will be charged with a \$200 tombstone, or whether individual heirs will be obliged to pay for it, is a matter that has already reached the courts.

In the Rock county court yesterday Judge J. W. Sile was busy throughout the day hearing claims in the matter of the estate of the late James Wheeler. Interested heirs who were present discussed at length payment for a tombstone that now marks the resting place of Mr. Wheeler, who was one of Rock county's most respected farmers.

A Queer Contention
The deceased, prior to his death, resided on a farm eight miles northeast of Johnstown, and in April, 1897, after a short illness, died leaving property to the value of about \$9,000. No will was made and the estate was placed in the hands of Administrator Sylvester Morgan.

Six heirs, grandchildren of the deceased now claim the property.

Prior to the estate being placed in the hands of an administrator, it is alleged that two of the interested heirs, Mrs. H. B. Osborne and Mrs. Malissa Rice, who reside near Johnstown, went to work unbeknown to the other heirs and ordered a \$200 tombstone at Whitewater and had it placed over the grave of their grandfather.

Object to the Outlay.

The other four heirs now object to the \$200 being charged to the estate and think that as long as Mrs. Rice and Mrs. Osborne took the responsibility of ordering it they should now settle for it. The other interested heirs are Mrs. Rosetta Powers and Mrs. Fidelity Barr, of this city, and Wallace and Frank O. Wheeler.

PREPARING FOR ACTION.

Much Activity in the War and Navy Departments.

THE FLYING SQUADRON SAILS.

Secretary Long Gives Out the Information That It Is Only a Practice Cruise—Plan of Campaign Outlined—Havana to Be Attacked.

Washington, April 14.—Wednesday was a day of stirring activity at the navy and war departments. Anticipating decisive action by congress the machinery of the military and naval branches of the government was early put in motion, and events of grave significance followed in quick succession. The first event to become known was the acquisition by the navy department of the American line steamships St. Louis and St. Paul, and coupled with the announcement came the information that in all probability Capt. Sigsbee would be placed in command of one and Capt. Goodrich of the other. The news that the flying squadron had raised anchor and put to sea caused intense excitement in all quarters and finally elicited the official statement that the squadron had merely gone to sea for a short practice cruise.

There was an evident anxiety on the part of officials for news of the various Spanish fleets, but up to a late hour no word had been received of any movement in that quarter. It was rumored that the Spanish vessels at Porto Rico had sailed, but this could not be confirmed.

At the war department details attendant upon the rearranged plans for moving the troops were put in shape, but matters in this regard are so well in hand that no orders were issued.

SPAIN IN A DEFIANT MOOD.

Ministers Declare That Any Attack on Cuba Will Be Repelled.

London, April 14.—The Madrid correspondent of the Daily Mail, telegraphing at 5 o'clock Wednesday evening, says:

"Lieutenant-General Correa, minister of war, and Count Xiquena, minister of public works, both told me in a conversation this afternoon that the government was grimly resolved to repel every attack, direct or indirect, on the sovereignty of Spain in Cuba. They said also that they were sure this line of conduct on the part of Spain would certainly be supported by the European powers, more especially because the negotiations were based on an acknowledgment of Spanish sovereignty in Cuba.

"They told me that the conduct of Spain would be adjusted to that of the United States, and that in face of the fact of the continuance of military and naval preparations in the United States, Spain was fully justified in carrying on her preparations. Finally the minister said to me:

"Our resolution at the cabinet council was taken unanimously, and we shall maintain it with all the necessary energy."

CAMPAIGN IS NOW OUTLINED.

Plan for Joint Land and Naval Attack on Havana Decided Upon.

Washington, April 14.—The plans for the joint land and naval attack on Havana have been practically decided on. They have been the subject of deliberation of a number of meetings of the naval strategy board, of councils of the joint war and navy board and of conferences between the governmental and military officials.

It is now decided that the fleet will at once move on Havana, invest it, and at the same time hold open the Florida straits for the free transportation of troops into the island. A part of the fleet will be employed for this purpose as well as to keep open the gulf to the west of Havana for a like purpose.

As soon as the army is ready, which will be within forty-eight hours, a considerable body of troops will be thrown into the province of Pinar del Rio, in the neighborhood, probably, of Bahia Honda, and an advance upon Havana will be begun at once. The fleet will co-operate with the land forces from the moment they land in Cuba, and both will attack Havana simultaneously.

ALL WILL REMAIN NEUTRAL.

Italy Said to Speak for Other Nations of Europe.

Rome, April 14.—At a meeting of the council of ministers the Marquis Visconti Venosta declared that Italy, in accordance with engagements entered into with the allied powers, would remain absolutely neutral.

The Italian Ambassador to Berlin has arrived in Rome. He informs the government officially that the German emperor will shortly visit Rome. This visit is connected with the present serious international situation.

A semi-official note states that the powers now consider their direct action in the Spanish-American conflict ended. If war breaks out they will observe absolute neutrality.

Passes War Measure.

Lansing, Mich., April 14.—Although the Michigan legislature adjourned Wednesday without passing the Pinckney railroad taxation bill, to consider which it was convened in extra session, both houses passed, without a dissenting vote, all the bills necessary to place the state on a proper war footing. These bills will be promptly signed by Governor Pingree when they reach him. Anticipating their passage, steps have already been taken to thoroughly equip both the national guard and naval reserve, and both are in

first-class shape and eager to respond promptly to any call for their services.

Prediction of Fairbanks.

Indianapolis, Ind., April 14.—Governor Mount Wednesday received the following telegram from Senator Fairbanks:

"The secretary of war will comply with your request as soon as formal action is taken here. There is no doubt now that war is near at hand."

"C. W. FAIRBANKS."

The request referred to in the telegram is one made by the governor that the state artillery be equipped with modern field pieces.

Miles Wants More Men.

Washington, April 14.—General Miles has urged Secretary of War Alger to make the call for volunteers 60,000. It was decided to adhere to the numerical strength of 40,000. There may be within a day or two a compromise on a force of 50,000, upon which the department officials are preparing the quota from each state, basing the calculation on the returns of available men in the state troops.

All Must Fight for Spain.

Madrid, April 14.—Don Carlos, the pretender to the Spanish throne, has issued a manifesto in which he declares that the Carlist who, at the prospect of war with the United States, would rise against Spain, would be a traitor. He adds that if the government does not venture on war, and permits Cuba to be lost, all Carlists who did not respond to the voice of their king would be traitors.

The Pelayo at Cadiz.

Washington, April 14.—The navy department has received word that the Spanish armored ship Pelayo had arrived at Cadiz from the navy yard at Cartagena, where she had been fitting out for sea service. The Pelayo is the best ironclad possessed by the Spaniards, and her presence at Cadiz is a formidable addition to the large fleet of battleships and cruisers rendezvoused there.

French Cabinet Expects War.

Paris, April 14.—The cabinet, at its meeting Wednesday, was occupied almost exclusively with consideration of the Spanish-American situation. The Ministers discussed the text of President McKinley's message, and also Spain's reply, which they semi-officially regarded as meaning that war between the United States and Spain is inevitable.

Proposes to Give Up Cuba.

Madrid, April 14, 7:45 p. m.—Upon the reassembling of the cortes Colonel Genaro Alas (retired), lately elected a deputy for Sancti Spiritus, Cuba, will introduce a bill to the effect that Spain should evacuate Cuba, reserving her sovereignty and a yearly royalty, with an arrangement as to the debts.

In Behalf of Peace.

London, April 14.—A special dispatch from Rome announces that the pope has again telegraphed to Emperor Francis Joseph of Austria begging him to use his influence with the other sovereigns in behalf of peace between the United States and Spain.

Spain Prepares a Protest.

Berlin, April 14.—Spain is hurriedly preparing an official protest against President McKinley's message, it is learned here, to be presented to the European powers to-morrow. Little hope is entertained here now that war can be averted.

The two-year-old son of W. L. Furgason, of Bolton, Miss., had whooping cough. "After several physicians had prescribed for him without giving relief," writes Mr. Furgason, "I persuaded my wife to try a 25 cent bottle of Chamberlain's Cough Remedy. The first dose had the desired effect, and in forty eight hours he was entirely free on all cough. I consider your remedy the best in the market, especially for children and recommend it at all times." The 25 and 50 cent sizes for sale by People's Drug Co., corner Main and Milwaukee streets.

The Best Liniment—"Chamberlain's Pain Balm is the finest on earth," writes Edwards & Parker, of Plains, Va. This is the verdict of all who use it. With it in the house, a great deal of pain and suffering may be avoided. For sale by People's Drug Company, corner Main and Milwaukee streets.

"I feel it my duty to give you a truthful statement of what Chamberlain's Colic, Cholera and Diarrhoea Remedy did," writes J. S. Collins, of Moore, S. C. "I had a child about two years old, that had the diarrhoea for two months. I tried all the best known remedies, but none gave the least relief. When this remedy came to hand, I gave it as directed, and in two days the child was completely cured." Sold by People's Drug Co., corner Main and Milwaukee Sts.

Put Your Finger

On your Pulse; see if it Beats Regular. If not, Look

out, you may have Heart Disease

DR. MILES' NEW HEART CURE,

The Great Heart and Blood Tonic

Regulates and Controls Unsteady Hearts and Puts Them Right.

The troubles and derangements of the affections and sorrow that are directly traceable to weak hearts are so numerous and so severe as to cause this great source of disease to be greatly dreaded by the whole human family. Loss of appetite, indigestion, liver and kidney disorders, bad blood, rheumatism, neuralgia and dropsy are common companions of heart disease. If your pulse beats too fast or too weak do not disregard the warning. It is Nature's way of telling you your heart needs help. Dr. Miles' New Heart Cure is Nature's help. It will not harm the weakest heart, but it strengthens and regulates the action of the heart, nerves and muscles, making it beat strong and steady. It improves the appetite, stimulates digestion, purifies the blood and strengthens the nervous system.

In a letter recently written by Mrs. Katie B. Houston, Exeter, N. H., that lady says: "Four years ago I suffered from a very severe attack of neuralgia and palpitation of the heart followed by pails in the left side and shoulder. My sleep was broken by smothering spells. I would have to sit up in bed to get my breath, and I was unable to do even light housework. I treated with a number of physicians and tried several remedies, but for three years I grew steadily worse. I had heard of Dr. Miles' New Heart Cure and the great good it had done others, so I decided to try a bottle of it. To my joy I began to improve from the very start. After taking it a few weeks I was able to do my own work about the house, and I no longer had those smothering spells. For over a year my health has

been splendid—better than for many years before. I sleep well at night, my appetite is good, and I feel like a different woman."

A weak heart affects all other organs of the body, and is accompanied with fatigue, nervousness, irritability, unsteady sleep. Dr. Miles' Heart Cure is the most reliable medicine known for such troubles, and will positively give relief when others fail.

A POSITIVE GUARANTEE. You run no risk in giving Dr. Miles' Heart Cure a trial. If the first bottle fails to benefit you, take the empty bottle to your druggist and get your money back. All druggists are authorized to sell the first bottle with that understanding. Book on the heart and nerves sent free. Address, Dr. Miles Medical Co. Elkhart, Ind.

UNCLE SAM'S NEW SHIP.

The United States is rapidly gathering a navy of strength commensurate with the greatness of the nation. A dispatch from Washington says:

"Since the war preparations were begun, forty-eight vessels of all types and classes have been added to the naval strength. They range from tiny harbor defense torpedo boats to the fast cruisers New Orleans and Albany, and include steam yachts, ocean-going tugs, colliers, an ambulance ship, auxiliary cruisers, the vessels of the revenue-cutter service and the light-house tenders, which have lately been impressed. Of the total number of vessels now subject to the orders of the Navy department, about thirty have been purchased outright by the government, either at home or in Europe, and only about one-fifth of them are yet in condition for service with the regular war vessels. The amount paid for these vessels has not been announced, but approximately it is understood that the newly purchased vessels have cost the navy so far nearly \$9,000,000, of which one-third was paid for the ships bought abroad."

The United States should have a strong navy, and ships should be provided as rapidly as possible until the country is on an equal footing with England. If the United States had maintained a navy equal to that of our English cousins, Spain would not have dared to say "boo!" to Uncle Sam, and a demand would have meant instant compliance. This is the lesson of the present trouble. In time of peace, prepare for war. Then war will not be necessary. Rapid fire guns—and plenty of them—are the best peace preservers. A standing army is not necessary, but a strong navy is absolutely essential to the welfare of the nation.

MAY CHANGE WORLD'S MAP.

Former Secretary of the Navy Thompson, of Terre Haute, Ind., in discussing the relation of the European powers to Spain and the Spanish situation, said:

"There are so many reasons why Spain can not go to war with the United States. To say nothing of the impossibility of her landing an army on our shores, she has neither money for conducting such a war nor credit in the money markets of the world upon which to base a loan for such an enterprise. The great nations of Europe will undoubtedly decline to make common cause with her against the United States, although some of them are in sympathy with her in her present emergency. If, however, these should unite her fortunes with hers, Great Britain would undoubtedly espouse our cause from commercial as well as from other considerations, and thus there would ensue a general war between the descendants of the Latin and English speaking peoples, which would not result otherwise than such wars have always done—in the triumphant victory of the latter. This result would change the map of the world."

SPANISH MONARCHY TO FALL

According to dispatches, the Spanish government is tottering to its fall. Civil war, it is said, is certain unless the government goes to war with the United States, and it is universally conceded that such a war could result only in Spanish defeat. The cabinet is divided, and the monarchy is in grave danger. The queen regent, Sagasta, and Morat, desire to yield to the United States, but the people will not

listen to them. The army is ready to rebel, and cannot be depended upon to suppress a revolt in case the Sagasta plan is followed.

This, if newspaper dispatches can be relied upon, is the situation in Spain.

If war with the United States is avoided, the government will be overthrown by the people; if war follows, the government cannot possibly survive.

Are the days of the Spanish monarchy numbered?

It certainly looks that way.

In a letter received recently from Carl Schurz by Gov. Scofield, Mr. Schurz makes the following reference to the governor's recent interview upon the war excitement: "I cannot close this letter without thanking you for your noble, eloquent and impressive utterance in favor of maintenance of peace which I recently found in the newspapers. It would be a blessing to the republic if it had more public men wise and courageous enough thus to confront unreasoning popular excitement. Accept this expression of my personal gratitude and esteem."

The copperhead Chicago Chronicle, which prided itself on its "patriotism" when it bolted free silver, is now attacking the administration most savagely. The Chronicle, evidently, is for any country on the face of the globe rather than the United States.

The sheriff and county board of supervisors of Chippewa county are quarrelling about the boarding of tramps. Chippewa county would do well to follow Rock county's lead, and adopt the "no tramp" system.

A newspaper heading says "General Blanco Has Lost His Grip." It looks very much as if Uncle Sam would soon give the general a proper dressing, however.

English papers give the United States the credit for forcing Spain to change its tactics in Cuba, although Spain claims the Pope and the powers were responsible.

CHEAPER CAR FARE ON ELECTRIC LINE

TWENTY EIGHT TICKETS FOR
ONE DOLLAR.

Street Car Company Makes an Effort
To Increase Patronage—Fare Will
Be Less Than Four Cents—The
Tickets Must Be Used Inside of
Twenty Days.

The Janesville Street Railway company, in order to induce the public to more liberally patronize the cars, have decided on a reduction in fares. The present plan is to sell twenty-eight tickets for one dollar, the same to be used up within twenty days' time.

Goes Into Effect at Once

Supt. Cummins and George W. Blabin, of Philadelphia, have been corresponding for several days past in reference to this reduction in price, and now Mr. Blabin has agreed to it the new schedule in rates will go into effect within the next few days.

Another plan that may prove still more liberal is to sell thirty tickets for the same price, but as yet this has not been definitely settled on. What she company want is more people to patronize the line, and if fair dealing and liberal terms will do it they propose to carry out their part of the program. Since the starting of the line this spring the patronage, although not any too liberal, has been firm, and the company see no reason to complain.

Try to Win Good Will.

Superintendent Cummins, in speaking of the present and future prospects of the road says he believes that the best way to induce the people to ride is to reduce the price of tickets. The extension of the line to other parts of the city, he believes, would not help matters when it is considered that much additional expense would be incurred before such improvements were carried out. By the present plan it is expected many people will ride who before found it a trifle beyond their means. The working class who could use the cars in going to and from their work are the people the company are now striving to interest. With the price of tickets at twenty-eight for a dollar they can well afford to ride at least twice a day, especially those who work in the outlying districts. Supt. Cummins says the new tickets will be placed on sale within the next few days.

Trade With Siberia Increasing.

San Francisco, April 14.—Pacific coast trade with Russian ports is increasing. Last Monday night the bark Edward May sailed and the barkentine Adenna sails in a day or so for Vladivostok with cargoes valued at over \$70,000. The vessels are bound for the terminus of the trans-Siberian railway, and other ships are shortly to be put on the route to the Amur river. Nearly all the goods thus sent are used by the Russians along the line of the railroad line at Vladivostok.

DECLARKS FOR WAR.

fish misrule in Cuba which had kept the United States in a ferment politically and financially and the history of the cruelties and barbarity of the present war on the island.

The vote was then taken on the substitute resolutions, and they were defeated—147 to 190. Messrs. Beach (rep., O.), Dorr (rep., W. Va.) and Mann (rep., Ill.), voted with the democrats and the populists for the substitute.

Mr. Dinsmore then moved to recommend with instructions to report back an amendment recognizing the independence of Cuba. It also was lost—146 to 190. The vote was then taken on the adoption of the majority resolutions, and they were adopted—322 to 10.

IN THE SENATE.

Action on the Resolutions Deferred Until Today.

Washington, April 14.—The senate received the report of the committee on foreign relations Wednesday, but did not act on the resolutions. Senator Hoar objected, and the resolutions went over until today. Two reports were made by the committee. The majority report was signed by all the members, and the minority report, which differed from the other only in its demand for the recognition of the Cuban republic, was signed by Senators Foraker, Mills, Daniel and Turpie.

The majority resolutions reported to the senate were as follows:

"Whereas, The abhorrent conditions which have existed for more than three years in the island of Cuba, so near our own borders, have shocked the moral sense of the people of the United States, have been a disgrace to Christian civilization, culminating, as they have, in the destruction of a United States battleship, with 266 of its officers and crew, while on a friendly visit in the harbor of Havana, and cannot longer be endured, as has been set forth by the president of the United States in his message to congress of April 11, 1898, upon which the action of congress was invited; therefore,

"Resolved, 1. That the people of the island of Cuba are, and of right ought to be, free and independent.

"2. That it is the duty of the United States to demand, and the government of the United States does hereby demand, that the government of Spain at once relinquish its authority and government in the island of Cuba and withdraw its land and naval forces from Cuba and Cuban waters.

"3. That the president of the United States be and he hereby is directed and empowered to use the entire land and naval forces of the United States, and to call into actual service of the United States the militia of the several states, to such an extent as may be necessary to carry these resolutions into effect."

The report of the minority of the committee declared:

Mr. Chandler in closing the debate announced that when the foreign relations committee resolution was called up to-day he would object to the consideration of any other business until the resolution was disposed of.

Mr. Daniel (Va.) offered a resolution requesting the president to transmit to the senate all diplomatic correspondence between the United States and Spain respecting affairs in Cuba; and also requesting him to inform the senate whether this government has submitted to Spain the proposition of Cuban independence, and if so, in what form such proposition was made and under what conditions. Without debate the resolution was agreed to.

After passing a large number of private pension bills the senate at 5:25 p. m. adjourned.

AS VIEWED BY EUROPE.

Madrid Press Clamoring for War—London Considers It Inevitable.

Madrid, April 14.—The message of President McKinley was received with mingled feelings. The public generally looked upon it as a direct thrust at Spanish sovereignty in Cuba. The government was inclined to regard it as a more peaceful proposition, and yet felt that it seriously menaced the Spanish cause. The action of congress has crystallized this sentiment into one of the most belligerent character.

Anticipating this action, a meeting of the cabinet was held in Madrid on Tuesday night, which resulted in a positive declaration never to yield to what has been termed the pretensions of the United States. The official report of this meeting given to the Madrid public contained this significant paragraph: "The doctrines contained in the president's message are incompatible with the sovereignty and rights of the Spanish nation and are an interference in the international affairs of this country."

The official note says further: "A firm consciousness of its rights, united with the resolution to maintain them, will inspire the nation, as they inspire the government, with the serenity necessary in these difficult moments to direct successfully and defend energetically the sacred interests which are the patrimony of the Spanish race."

Since the issuance of this note the responsible heads of the government have reiterated in interviews their determination never to yield up Cuba at the demand of the United States.

The press of Madrid is much more rabid in tone, openly clamoring for war.

The London Times in an elaborate review of the situation says the United States and Spain must battle for supremacy on the ocean. An attempt on either side, the Times says, to invade territory would be disastrous.

Switzerland May Tender Mediation. Bern, April 14.—The national council

has suggested that the undersigned consider whether it could not offer to mediate between the United States and Spain. The proposition will be considered to-morrow, but it will doubtless be rejected.

Danville, Ill., April 13.—The conference of mine operators being held here Wednesday resulted in an adjournment. Miners and operators met here in good faith on Mr. Ratchford's assurance that he would be present, but he failed to make his appearance.

London Editors Foresee War.

London, April 14.—The afternoon newspapers of this city unanimously express the opinion that both the United States and Spain are heading straight for war. There is also a disposition to blame President McKinley for his alleged indecision.

HOUSE DECLARES FOR WAR.

Immediate Intervention in Cuba Demanded.

RADICAL RESOLUTIONS PASS.

Spain Held Responsible for the Destruction of the Battleship Maine and the Death of American Seamen—Members Engage in a Rough and Tumble Fight on the Floor.

Washington, April 14.—The house of representatives Wednesday, after one of the most exciting and memorable days in its history, by a vote of 322 to 19, adopted a resolution which nineteenth of its members believe makes war with Spain inevitable. It is a fact which was grimly commented upon by members as they spoke of the future, that every war in which the United States has engaged began in April, and that Wednesday was the anniversary of the fall of Fort Sumpter, which aroused the patriotic fervor of the north and made the four years of civil strife a certainty. The resolutions adopted direct the president to intervene at once in Cuba to restore peace and secure to the people of this island "A stable and independent government of their own," and authorize him to use the army and navy to execute the purpose of the resolutions.

Although only nineteen members—fifteen democrats, three republicans and one populist—dissented upon the final vote, the proceedings were marred by a bitter and acrimonious display of partisan feeling. During the height of the excitement the lie was passed between Mr. Brumm (rep., Pa.) and Mr. Bartlett (dem., Ga.), and a disgraceful scene followed that almost descended to the level of a free fight. Mr. Bartlett hurled a book at his adversary, and in a minute half a hundred members were fighting like fiends. Order was finally restored and later the two members found that the altercation had arisen out of a misunderstanding, whereupon there were mutual apologies. Later in the proceedings the speaker was obliged to again call upon the sergeant-at-arms with his silver mace, the emblem of the house authority, to seat Mr. Johnson (Ind.), who was indignantly remonstrating against what he termed the "unnecessary war into which the country was being plunged."

Only forty minutes were given for debate and a special rule was required to get the resolutions before the house. The minority resolutions, which declared for the recognition of the existing government of the insurgents, were voted down—147 to 190—but they secured the votes of three republicans. Trivial matters occupied the attention of the house for an hour, while the members on the floor and the spectators in the galleries impatiently awaited the presentation of the resolution from the committee on foreign affairs.

The suspense of the members was almost unendurable, but shortly before 3 o'clock Mr. Adams entered the hall with the report. The presentation of the resolutions was the occasion for a wild outburst of applause from the galleries and the floor. It was evident that the war spirit was rampant. Mr. Adams asked unanimous consent for the consideration of the resolutions and Mr. Bailey reserved the right to object, saying that whether he objected or not would depend upon a fair understanding as to the length of the debate could be reached. He sought to interpose with a request that the minority resolution be read, but the speaker insisted that if objection was to be made it must be made then.

"The chair is determined to try to force the minority—" cried Mr. Bailey, amid much confusion and cries of "Regular order." Then Mr. Bailey

THINK THIS OVER.

A Rational Remedy for a National Trouble.

To say that hemorrhoids or the disease commonly known as piles, is a national disease, may be slightly overdrawn, but it is quite certain that at least one in every four persons is so afflicted.

Because it is common and not immediately fatal many suffer for years without giving the trouble medical attention.

Moreover, the rather general impression that a surgical operation is the only cure, has much to do with delaying attention until the disease becomes deep seated and chronic.

Sufferers from piles should know that the Pyramid Pile Cure is better than a surgical operation: it cures without pain, it causes no detention from business and the cost is trifling, all druggists selling it at 50 cents per package.

The astringent effect of the acids in the Pyramid Pile Cure speedily contracts and restores to their natural condition the blood vessels of the affected parts, and as it quickly dissolves in the rectum, the remedy soothes and heals the irritated surfaces and these two things are the only necessary requirements for a cure.

The principal danger from piles is the liability to chronic ulceration of the rectal tissue, and nervous exhaustion from loss of sleep and the attendant pain and irritation. All these symptoms the Pyramid quickly relieves and the fact that it is the most popular and widely sold of any pile cure is quite conclusive evidence of thorough merit. If you suffer from bleeding, itching or protruding piles try a fifty cent package tonight. Ask your druggist for Pyramid Pile Cure.

turned, and, facing the other side, entered his objection in emphatic tones. At this juncture occurred the sensational climax of the day, and one of the most exciting incidents in the history of the house. Members all about were in a state of frenzied excitement. Partisan passion was running high. It required only the application of a match to explode the magazine, and when the explosion came pandemonium reigned. Mr. Bartlett (dem., Ga.), off to the right of the chair, was supporting the protests of the democrats against the taunting words which were coming from the other side.

Suddenly in his rear in the next tier of seats came in stentorian tones from Mr. Brumm (rep., Pa.) a taunt addressed generally to the democratic side: "You got just what you didn't want!" he shouted.

"That is not true," cried Mr. Bartlett, who it was subsequently explained, was addressing his remarks to a republican on the other side.

"I say it is!" retorted Mr. Brumm, hotly.

"It is not!" flared back Mr. Bartlett, turning and facing Mr. Brumm.

"You are a liar!" responded Mr. Brumm.

The lie had passed. Instantly Mr. Bartlett reached for a large bound copy of the Congressional Record in the desk before him, and, raising it aloft, hurled it at his adversary. It fell short, and then the two antagonists rushed for each other.

The house immediately was in an uproar. Members crowded toward the combatants from all quarters. They ran across the area in front of the speaker's desk and crowded up the adjoining aisles, clenching, tugging, hauling at each other like madmen. It was like a free fight in the street. Shouts of anger and indignation were heard on every hand. Members in the crush espoused the cause of the two original combatants and there were several exciting collisions, but no blows struck.

Meantime Mr. Bartlett and Mr. Brumm were trying to get at each other over the benches, but they were borne back by friends. Mr. Bartlett, who is a slight man, was carried off his feet, and Mr. Miers of Indiana, a stalwart, broad-shouldered man, blocked the path of Mr. Brumm, who is himself evidently a man of great physical vigor.

In his efforts to stop Mr. Brumm, Mr. Miers became involved with Mr. Pierce of Missouri, and they almost came to blows.

All this time the gavel of the speaker was heard above the awful noise, and his voice was commanding the sergeant-at-arms to restore order.

Armed with the great silver mace, the emblem of the authority of the house, Col. Russell, the sergeant-at-arms, repeatedly charged the thick mass of struggling members, but was as often swept aside. At last by the efforts of a dozen muscular members the belligerents were separated, the angry legislators retired to their seats and a semblance of order was restored. It was one of the most disgraceful scenes witnessed in the house in many years.

The effort to get the resolutions before the house failed, the committee on rules retired and formulated a special order, which was brought in a few minutes later, which Gen. Henderson presented. It provided for the immediate consideration of the resolutions presented by the foreign affairs committee. The house was at this time still laboring under a great stress of suppressed excitement. Partisan feeling was still rampant. Mr. Henderson explained that the rule did not propose to close debate.

"I and my colleagues," replied Mr. Bailey, "heartily agree to the rule which provides for the immediate consideration of this important resolution. But there is a radical difference between the resolutions reported by the majority and those reported by the minority. There ought to be time and opportunity allowed for those of us who think the minority resolution the wiser to point out to the house and to the country the reasons for our belief. And yet I know as well as the members on that side that these resolutions, involving the question of peace or war, are to be rushed through this body with a short and insufficient debate, and that, too, when every man in the country knows that nothing can be done until the senate acts, and you know that the senate will act with proper deliberation."

Mr. Johnson (rep., Ind.) entreated Mr. Henderson "not to be ungenerous enough to move the previous question until other gentlemen have had the right to be heard."

Mr. Henderson declined to yield, but he granted a few minutes to Mr. McMillin (dem., Tenn.), a member of the committee on rules.

Mr. McMillin favored the adoption of the resolution at once, saying: "So far as I am concerned, and I believe I represent the members on this side of the house, we are not only in favor of free Cuba, but we intend that the president shall not stand in the way of that freedom."

Mr. Henderson in closing the debate criticised severely the position taken by Mr. Bailey. He demanded the previous question against the loud protests of Mr. Johnson (Ind.), who became so violent in his denunciation of this effort to stifle debate and not allow a "remonstrance against the unnecessary war into which the country was to be plunged" that the speaker had to appeal to the sergeant-at-arms to compel him to take his seat.

The rule was then adopted and the resolutions were again presented, together with those of the minority, which were to be offered as a substitute.

Mr. Adams, the acting chairman of the committee, closed the debate. He

SORES

On His Leg Twenty-seven Years Cured by

SEPTICIDE

"While in the army with the 54th ind. Vols. sores came on my leg from the knee down, and much of the time since that I have been able to walk only with crutches. I have tried almost every remedy which friends suggested, but never struck the right remedy until about three weeks ago, when by the advice of our druggists, Goddard & Watson, I commenced the use of "SEPTICIDE." I took it internally and kept the sores wet with it four or five times a day. I am now happy to say, that I am entirely cured, and my leg is as sound as ever."
THOMAS MOLER,
Chippewa Falls, Wis.

We are acquainted with Mr. Moler, and know that "SEPTICIDE" cured him. **GODDARD & WATSON,** Druggists.
